AM PROUD OF IT.

Many a man can not understand why he makes no headway in life. Others are promoted to better positions, or start a business of their own and soon begin to prosper. But he always works in the lower ranks, barely lives from hand to mouth, has to subordinate himself to others, who are often his inferiors in education, knowledge and manners. The treadmill of his daily work is to him a heavy yoke which weighs him down and crushes his ambition.

He looks at a better position as a life prisoner longingly stares through the barred windows of his cell at a bit of blue sky. Being afraid to try a new field, he lets one opportunity after another slip by, and sighing bewails his "hard luck." There is no such thing as hard luck, something is wrong

with you, my friend.

You lack the personal magnetism; he power of mastering conditions; the spirit that makes you with a cheerful smile tackle and solve problems which others shrink from. The talent for leadership, the ability of impressing your will upon others demands a healthy body. You are not fit for a higher position, the problem you are trying to solve is mainly a question of health.

Don't look with regret at the Past, nor with fear at the Future. The Past you can not undo. It is gone, and of the Future the Present will take care. You will shape your own Future. Prepare yourself now, and your Future will be bright. Your nervousness, lack of enterprise and energy; weakness of decision, low spirits, aches and pains, irritability, tired feeling and a host of other symptoms are unmistakable signs of Nervous Debility.
